Why experience matters in DUI defense

A DUI conviction can mean jail time, license suspension, thousands in fines, and increased insurance for years. Our former prosecutors know the science behind breathalyzers and field sobriety tests — and how to challenge them.

- ✔ Challenge illegal traffic stops (4th Amendment)
- ✔ Attack breathalyzer & blood test accuracy
- ✔ Field sobriety test errors (health, weather, fatigue)
- ✔ Negotiate reckless driving reduction (lesser charge)
- ✔ DMV hearing to save your license

DUI & DWI cases we defend

🍺

First Offense DUI

Minimum penalties vary by state. We aim for dismissal, reduction to reckless driving, or minimal consequences.

📈

Aggravated DUI

High BAC (.15+), accident, injury, or child in car. Mandatory jail in many states. Experienced defense required.

🔄

Multiple DUI / Felony DUI

Second, third, or fourth offense. Felony charges bring prison time. Aggressive litigation necessary.

🧪

Drug DUI (DUID)

Driving under influence of marijuana, prescription drugs, or illicit substances. Challenging toxicology results.

🚛

Commercial DUI (CDL)

Stricter BAC limit (.04%). One DUI can end your career. DMV hearing critical.

📋

Underage DUI

Zero tolerance (BAC .01-.02%). License suspension, alcohol education, potential expungement.

Your DUI defense — step by step

From arrest to resolution, we protect your rights.

🏆 **2026 Defense Strategies**

• Illegal traffic stop — no probable cause
• Faulty breathalyzer — improper calibration, maintenance logs
• Rising blood alcohol — BAC at time of driving vs. testing

📋 **Field sobriety test issues**

Health conditions (inner ear, back, knee), weather, uneven pavement, fatigue. Tests are subjective and often challenged.

⚡ **License saving tips**

Request DMV hearing within 10 days of arrest. Some states offer restricted licenses for work/school during suspension.
